

# Home Education

## Who

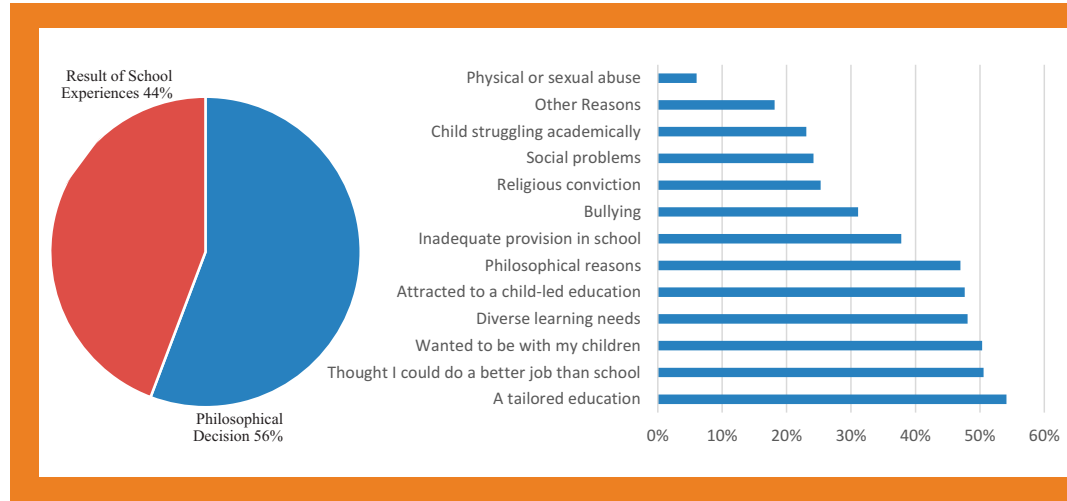

There are almost 20,000 students registered for home education in Australia, plus alumni. We span the political, social and economic spectrum. Home educators are doctors, lawyers, teachers, scientists, trades-people, farmers, artists —name an occupation and you will find a home educator.

## Why

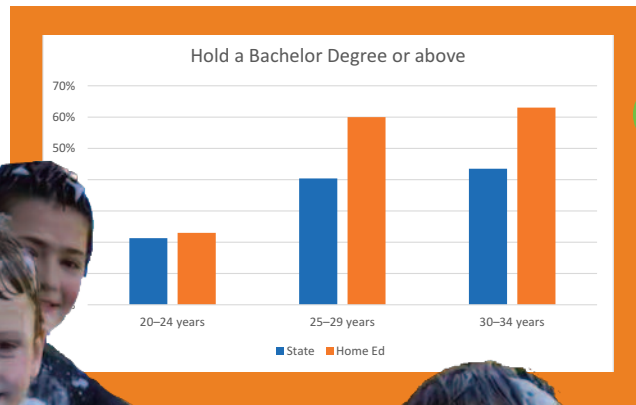

Complex multiple factors lead to home education.

- 60% withdraw children from school.
- 37% home educate from the start.

## Community

We are a vibrant community with camps, activities, excursions, classes and concerts.

## Outcomes

Students go on to university and careers.

See our alumni survey for more details.
